God Above All

BACKGROUND & HISTORY

The Nudi Empire Foundation group was started by a group of Student Leaders and friends from St. Paul's University in September 2018.

Since its formation and inception the group has attracted a good number of Alma Mata's of St. Paul's University, a number of current comrades, the larger St. Paul's University and people of good will and well wishers who strongly subscribe to the philosophy of giving back to the community.

The main objective of the foundation is to impact the community positively through;

- Promoting quality education both formal and informal,.
- Environmental conservation.
- Identifying, tapping and nurturing grassroot talents amongst the young people.
- So as to inspire, empower and transform lives and in turn ensure sustainability and development for a better community.

Our anchor is based on our strong belief in God's favor and grace which equips us with strength and wisdom which makes us fulfill our daily endeavors and inspires us to servanthood.
